The present Information Disclosure Statement is being filed according to 37 C.F.R. 1.97(b) and before the latter occurrence of:

- (1) three months from the filing date of a national application;
- (2) three months from the date of entry of the national stage as set forth in 37 C.F.R. 1.491 in an international application; or

REMARKS

The attached PTO 1449 form lists related art references for the above identified application.

EXPLANATION OF RELEVANCE

References AJ, AQ, and AR were cited during the prosecution of a corresponding German application. Reference AJ is a United Kingdom patent document and is in English, so no further commentary on its teaching is required. References AQ and AR are German-language manuals: reference AQ is an operation manual for the Siemens Memoset product, and reference AR is an operation manual for the Alcatel 4400 telecommunication system product. A

translation of any or any part of these references will be produced for the Examiner upon request.

The filing of the present Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed as an admission that the information cited in the present Information Disclosure Statement is, or is considered to be, material to patentability as defined in 37 C.F.R. 1.56(b).

The above citation of related art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent related art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of related art of which applicant and his attorney are presently aware and is not intended to serve as a substitute for the Examiner's own search.
